The Government Attacks the Great Peralta Grant.

FENCING IN PUBLIC LANDS.

The Authorities on the Warpath Against Certain Cattle Companies-Cologne Causes a Man's Death-Mrs. Corbett Sues for Divorce.

SANTA FE, N. M., June 5. - The court of private land claims ordered the celebrated Peralta grant for 12,750,000 acres of land to trial yesterday. United States Attorney Reynolds' opening statement challenged every document and record of the plaintiffs and Mexico. He claimed that in 1886 L. U. Reavis and wife went to Spain, and Reavis was discovered in the act of attempting to leave among the files here June 12, and county and townforged evidence of title. Proceedings were taken to the Spanish courts, the records found to be forgeries and Reavis was adjudged guilty thereof. His arrest was ordered, having made his escape, because of the very formal and slow methods of procedure by the Spanish officials, he was in consequence declared by the court to be a fugitive from justice. The government claims that it has conclusive evidence that Mrs. Reavis was the daughter of John A. Treadway, her mother being an Indian delegates to the convention. squaw, called Kate, and that she was

WARDEN CHASE MATTER.

Gov. Morrill Says if the Warden Shows Fight He May Go to Prison. TOPEKA, Kan., June 5 .- Gov. Morrill last night signed an order removing S. W. Chase from the wardenship of the state penitentiary and this morning sent T. W. Eckert, a member of the board of directors of the prison, to serve it. That done he will announce the appointment of J. B. Lynch to fill the vacancy. Chase's attorney, J. G. Waters, announced this morning that his client would not give peaceable possession of the prison, but would re-

sist with force if necessary any attempt

of the state or Lynch or the agent of the governor to dispossess him. Gov. Morrill said this morning that it was not the purpose of the state or of the directors of the prison to resort to a fist fight in order to dispossess Chase, but he had no doubt that Lynch would be in possession of the institution and Chase turned out before the close of the present week. "Mr. Chase," he continued, "is in no position to throw stones. He had better look out or he may land in the penitentlary as a prisoner. The charges and findings against him are serious and a jury might say are sufficient to give him a term in the
